

## DISINFECTANT CLEANING SOLUTION

A scientifically proven, independently tested, medical grade disinfectant and cleaning solution that is truly effective across the whole spectrum of professional healthcare environments.

The range includes a ready-to-use liquid and spray, and a concentrated formula, each with the following benefits:

- Independently tested to the highest British and European standards (EN1276, AFNOR, EN14476, EN12504, EN13727).
- Product is non-hazardous and non-toxic and has been MEA tested to ensure it is safe to use.
- Protects against 99.9% of bacteria, viruses, and spores tested.
- Alcohol free and pH neutral, so gentle on skin.
- Effective in under 30 seconds and long lasting residual efficacy.
- Suitable for use on virtually all surfaces, including fabric, without damaging or degrading them.
- Highly economical – Remains effective at high dilution rates, reducing the amount of product required.
- Dual Action – Combined cleaning and disinfecting action eliminates the need for separate products and cleaning procedures.
- Environmentally friendly – Proven by independent audits to be non-toxic, biodegradable and non-accumulative in the ecosystem. No special procedures are required for product disposal or in case of spillage.

Suitable for use on:

- Work surfaces, floors and walls.
- Fabric and furnishings.
- Equipment and utensils.
- Whole-room decontaminations.

Hygiene on the go

10ml pen spray and 50ml spray are designed to clean and disinfect hands as well as surfaces whilst on the go.
